Subject: RE: IMT Docket V-W-15-308-10

Hello Mr. Marwedel:

I am writing to confirm that EPA has extended the requirement to respond to IMT's 308 information request to May 25, 2015.

The information request definition of "bulk solid materials" may be narrowed to include petcoke and coal products only.

Please let me know if you have any further questions. We look forward to working with you.

Best,

Nicole Cantello

Dear Ms Cantello,

I represent Illinois Marine Towing regarding the Information Request received by them on March 30. I would like to talk to you regarding the response, the breadth of the request and the time limit to respond. While it is the intent of IMT to respond, we have some issues to discuss with you. I have responded to you, rather than Joan Rogers, because I am an attorney and felt it was the most proper way to proceed.

Please call me at your earliest convenience.

Warren

Subject: IMT Docket No V-W-15-308-10

Dear Ms. Rogers,

Thank you for calling back this afternoon re the Information Request. This will confirm that Illinois Marine Towing intends to comply with the Information Request. As I mentioned in the call, we do have some concern re the products that are at issue. I would like to have the request modified to include coal, coke and pet coke cargoes in barges. The bulk solid material definition is so broad, and from the material in your document it seems that the coke and coal products were the products of concern. Please get back to me next week to see if the search can be so restricted, with the understanding that the request may be broadened in the future.

Also I spoke of the issue of time to respond. I would like to have up to, and including, May 25 to produce documents. Much of the material sought may come from various vessels, and not easily obtained in a short time period. IMT moves barges owned and operated by other parties, and we may not have access to some information. If that is the case we will have to figure out how to get the information, or tell you who may have it.

We plan to have documents scanned and bates numbered and we would deliver a CD to your office.

If I have missed anything, let me know.

Warren
